

1st Magnetoelastic Workshop

September 18-19, 2023

Charles University, Prague, Czechia
melw23.eu

Aim

Magnetoelastic Workshop is dedicated to discuss problems of phonon electron coupling and in general breaking of the Born-Oppenheimer approximation.

Invited speakers will present their findings from the theoretical and experimental studies of the topic.

The goal is to gather the community and establish a ground for scientific exchange and collaboration.

Schedule

- 18-19 September 2023
- Lunch to lunch
- Detailed program will be announced and updated on the workshop webpage

Location

Charles University
V Holešovičkách 2, CZ-18000 Praha 8, Czechia
